The image shows a dark-themed code editor window. At the top, there are two tabs: 'Code' (which is active and highlighted) and 'Blame'. To the right of the tabs, it says '1 lines (1 loc) · 14 B'. Below the tabs, there is a single line of code: `1.5*x : 1.33*x`. The line number '1' is visible on the left side of the code line.
